(An Autonomous Academic & Research Institution Certified by MSME, Govt of India & ISO 9001:2015 & Registered under NITI Aayog, Govt of India)

### **AN APPEAL TO PARTICIPATE & CELEBRATE** **URBAN WATER SECURITY WEEK - 21 to 27 May, 2023**

Respected Sir/Madam,

Greetings from SAIARD!

It's my pleasure to inform you that considering the importance of each drop of water in our life but the negligence of us to protect it particularly in case of urban area, on behalf of SAIARD we have taken an initiative to celebrate **URBAN WATER SECURITY WEEK** from **21 to 27 May, 2023** throughout the world with a vision to generate awareness among the masses about the relevance of this valuable natural resource.

We are looking forward to connect the academic and non-academic institutions throughout the world with this mission as much as possible and are delighted to invite your esteemed organization to participate in this upcoming Urban Water Security Week celebration.

There are several ways that your institution can get involved in the Urban Water Security Week celebration. You could organize a workshop or seminar to discuss water security issues in your area, host a water conservation campaign, or collaborate with other institutions to develop joint initiatives to address urban water security challenges and can send your initiative by just scanning the **QR Code** given in the brochure. Also requesting you to print the poster and paste it in your institution's notice board.

*[But all these initiatives you have to do under the banner/poster of **SAIARD-UWS Week** though we may attach your logo in case of any event you will organize in your campus as a collaborative partner of this initiative.]*

We believe that your institution's expertise and experience in this field would be invaluable to the success of the Urban Water Security Week celebration. Your participation would be greatly appreciated and would contribute to the overall goal of promoting water security in urban areas.

Looking forward to your kind cooperation and active participation in this regard.

Let's join hands to save water and promote water security in our communities.

Thanking you

With Best Regards

**Biswajit Roy Chowdhury**
