

SAIARD

# NATIONAL GEOSPATIAL POLICY & INDIA VISION 2047

Transforming India to a Geospatial Nation

ISBN

## Concept

The National Geospatial Policy is a significant initiative aimed at exploring and shaping the trajectory of India's geospatial policies and envisioning its future landscape in 2047. The National Conference on National Geospatial Policy & Vision India 2047 is poised to be a pivotal platform for fostering collaboration, sharing knowledge, and envisioning a technologically empowered and inclusive India. It seeks to harness the transformative potential of geospatial technologies while addressing the challenges and ethical considerations essential for sustainable growth and equitable development.

Therefore, Considering its relevance, SAIARD is going to publish its 10th edited volume on National Geospatial Policy & India Vision 2047.

## Proposed Themes

- Geospatial Technology for Sustainable Development
- Policy Frameworks and Governance in Geospatial Data Management
- Innovative Applications of Geospatial Intelligence
- Public-Private Collaboration in Geospatial Innovation
- Geospatial Technology and Smart Infrastructure Planning
- Environmental Conservation and Geospatial Mapping
- Geospatial Data Security and Privacy Challenges
- Empowering Communities through Geospatial Solutions
- International Collaboration and Creating Global Geospatial Market
